INVITATION

The International Conference on Frontiers of Plasmonics (FOP) aims to build a platform for scientists in the field of plasmonics to present and discuss their latest research results, exchange ideas and inspire new thoughts. FOP series conference was initiated during the Nanophotonics workshop of the International Center for Quantum Structures (ICQS) in 2009, and has been regarded as FOP0. Every two years FOP is co-organized by Nanoscale Physics & Devices Lab., Institute of Physics, Chinese Academy of Sciences, and a local institution in China. FOP1 and FOP2 were successfully held in Xi'an and Chengdu in 2010 and 2012, respectively.

XIAMEN--THE VENUE

The venue city will be Xiamen, also known as Amoy, a beautiful subtropical coastal city on the west coast of the Taiwan Strait. There is a wealth of golden beaches, parks, ancient temples, museums, and concert halls in Xiamen and its vicinity. No wonder in recent years the city has won the finals of the world's Human Settlements and Environment Awards, "Nations in Bloom", and other awards. The weather in March is wonderful and comfortable. Xiamen is easily accessible by air; Xiamen International Airport (XMN) is one of the leading international airports in China with excellent services and first-rate facilities. There are direct flights from Bangkok, Hong Kong, Kuala Lumpur, Manila, Osaka, Seoul, Singapore and Tokyo. XMN is a hub linked to more than 50 domestic airports. The venue site will be the Science and Art Center of Xiamen University with excellent facilities.

CONFERENCE FORMAT

The conference will emphasize a face to face discussion. It will remain a single session format and will have several thematic sessions, 3 poster sessions, and 2 tutorial sessions, and an instrument exhibition. The conference will be organized in a relax way so that in-depth and fruitful discussion will be ensured. The official language will be English. We expect about 300 participants.

TOPICS AND SCOPE

FOP3 will cover all aspects of plasmonics, including but not limited to:

- ◇ Quantum plasmonics
- ◇ Plasmon-enhanced spectroscopy
- ◇ Plasmon-induced chemistry
- ◇ Plasmon-enhanced light harvesting
- ◇ Emerging concept in plasmonics
- ◇ Active plasmonics
- ◇ Plasmonic metamaterials
- ◇ Novel plasmonic materials
- ◇ Application of plasmonics in medicine and biology

POST-CONFERENCE TOUR

Two tour routes to famous scenic and historic sites in China, e.g., Wu-Yi Mountains and Hakka earth buildings will be organized to suit the participants' interests.

APPLICATION & REGISTRATION

Application

Due to the very tight time slot for oral presentation as a result of single session format, we will pick up contributions for oral presentation on a first come first serve basis. Please register yourself and submit your abstract online (<http://fop3.xmu.edu.cn>) before the deadlines to enjoy the early-bird rate. The type of presentation will be notified shortly after the deadline of abstract submission.

Registration

Participant Type	Early Bird (by Jan. 20th)	Regular (by Mar. 20th)	On-site
Regular Participant	\$500/ ¥ 2800	\$550/ ¥ 3300	\$650/ ¥ 3800
Student	\$250/ ¥ 1500	\$300/ ¥ 1800	\$350/ ¥ 2100
